Pricing Discipline has Improved Environment for Liner Operators

Freight Rate Indices (ex-Shanghai) & Time Charter Rate Index

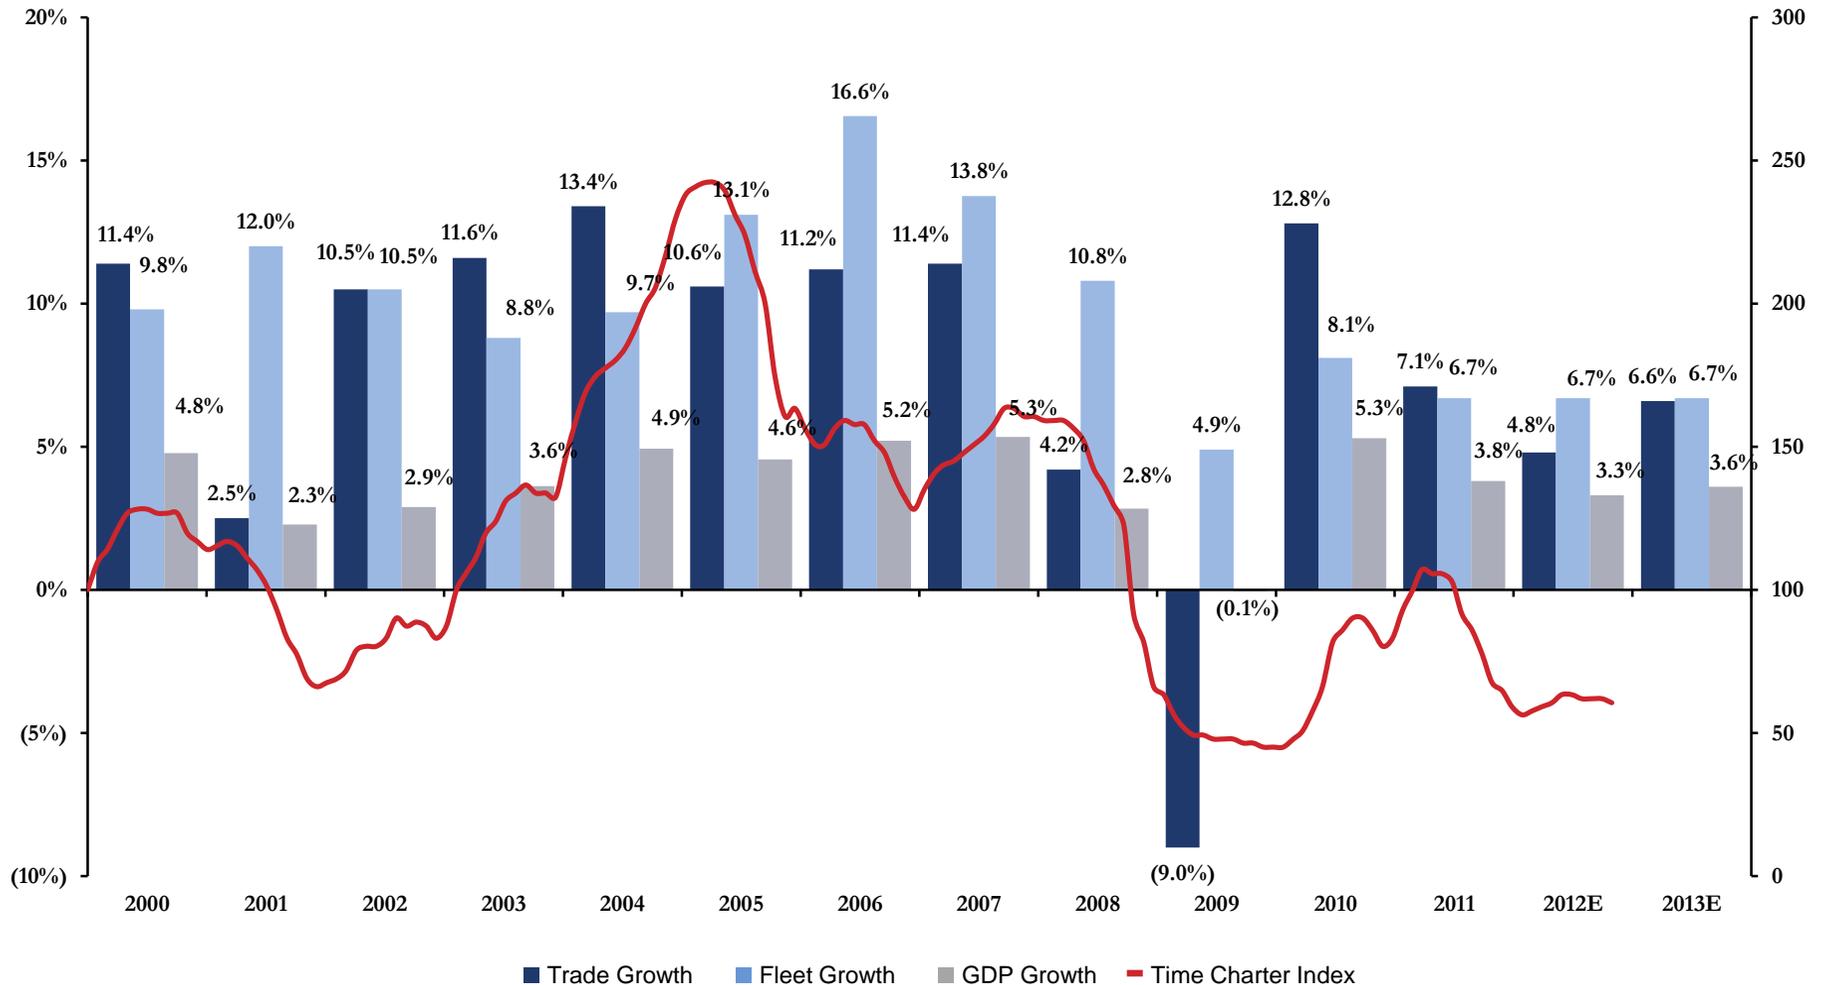

Commentary

- 3Q2012 liner results published to date have shown the continued positive impact of pricing discipline
- New capacity deployed on the Asia-Europe trades put spot rates in these trades under pressure in 3Q2012
 - Lines are blanking selected sailings to mitigate excess capacity and reduce downward pressure on rates
 - Slow steaming continues to absorb effective capacity
 - Further General Rate Increases (GRIs) are being implemented in 4Q2012
- Weak supply / demand fundamentals continue to impede recovery of spot charter market and asset values

Concluding Remarks

- GSL business model and contract coverage insulate revenues from current challenging market:
 - All 17 vessels secured on charters with two expirations in May of 2013 and no further expirations until 2016
 - Contracted revenue stream of \$1.1 billion with weighted average remaining contract term of 7.6 years
- Newly secured waiver eliminates exposure to asset volatility; cash flow to be used to strengthen balance sheet
 - No exposure to financing or re-financing risk until late 2016
- Future cash flow to benefit from the expiration of \$253 million interest rate derivatives mid-March 2013 and reduced drydocking schedule in 2013, 2014 and 2015
- Business model and deleveraging supports equity value and, when firmly in compliance with loan-to-value covenant, the reintroduction of sustainable dividends over the long term
